About Degen Gamer Club

1.1 What Is Degen Gamer Club (in Short Degen)?

Degen Gamer Club is a decentralized game platform. Its core game is built on Texas Holdem, a very popular poker game with hundreds of millions of players and fans around the globe, and the community keeps growing

1.1.1 What Makes Degen Unique?

Degen has several innovations that make it different comparing to other poker platforms: 1. It is designed to be a play-to-Earn game (PTE), which means it will provide a mechanism for players to earn the utility token (DGC) for free and realize economic value along the play. This will make the game popular among recreational players and build a vast user base in the long run. 2. It has unique NFT collections for users to explore, each NFT is built in with special features and functionalities. Players can choose their favorite cartoon figures and enhance the characters through competition. The NFTs are also tradeable both in game or through third-party platforms such as Opensea and rarible etc. 3. It creates a safe entertainment environment. RNG(Random Number Generation) mechanism by utilizing blockchain verification is proven that will make the card shuffling based on pure randomness that avoid possible hacking of many forms. 4. It aims to build a pure crypto poker community . Simple and hustle-free process of deposit and withdraw. Degen will not accommodate fiat currency deposit, only crypto currencies will be accepted. So that means the platform will not ask for your credit card information, billing address, etc. In fact, they will not even ask for your name. It will support depositing BTC, ETH and stable coins (USDT, USDC, DAI) from all supported chains (ETH, BSC, Polygon, TRX, SOL)

1.2 What is DGC

DGC is the native utility token that is used for:

- Player reward.
- NFT purchase.
- Discount on paying for in-game rake and tournament entry fee
